

Originating from the University of Montreal and Concordia we've served for 20+ years at Pharmaprix and Shoppers Drug Mart.

We've been trusted guides at these top pharmacies and our history deepens our dedication to patient care.

In May 2021, we started a hybrid online and physical store, blending tradition with agility.

Our establishment focuses on your needs, balancing technology with personal touch.

We're here to offer expertise, advice, and quick prescriptions, merging the old with the new.

We're more than a pharmacy; at MisterPharmacistTM we prioritize your health and convenience.
